

PROFESSIONAL SUMMARY

Computer Science (AIML) undergraduate with a Diploma in Computer Engineering from Government Polytechnic Pune, possessing strong foundations in Data Structures, Algorithms, and Object-Oriented Programming. Proficient in Python and Java with hands-on experience in developing machine learning models and REST-based web applications using Flask and MongoDB. Experienced in data analysis and visualization using Power BI. Passionate about building scalable, efficient, and real-world software solutions in a product-driven environment.

KEY EXPERTISE

Python Java HTML CSS AI ML c DSA AAP DBMS

EDUCATION

MIT Academy of Engineering, Pune

2025 - 2028

B.Tech. - CSE - Artificial Intelligence & Machine Learning |

Government Polytechnic, Pune

2025

Diploma | Diploma - Computer Engineering | Autonomous | Percentage: 81.07 / 100

Krantisinha Nana Patil English Medium School, Kundal

2022

10th | MSBSHSE | Percentage: 94.80 / 100

INTERNSHIPS

Infaneet Digital Marketing & Web Media, Pune | IT / Computers - Software

03 Jun, 2024 - 15 Jul, 2024

Android Developer Intern

Key Skills: Firebase Basics Debugging Android Studio XML Layout Design Activity Lifecycle App Deployment Basics

Worked as an Android Developer Intern, gaining hands-on experience in Android app development, UI design, lifecycle management, and debugging. Contributed to assigned development tasks and demonstrated strong technical and professional skills.

ASSESSMENTS / CERTIFICATIONS

Claude 101

Key Skills: Prompt Engineering AI Productivity Claude Basics Text Summarization Content Generation AI Assistance

Kickstarted AI fluency by learning Claude's core features, structured prompting, and practical applications for improving productivity, content creation, and academic tasks.

AI Fluency Framework & Foundations

Key Skills: AI Ethics Responsible AI Critical Thinking Human-AI Collaboration AI Safety 4D AI Fluency Framework

Learned the 4D AI Fluency Framework to collaborate with AI effectively, efficiently, ethically, and safely across academic and real-world applications.

AI Fluency for Students

Key Skills:

Academic Research using AI AI-assisted Writing Ethical AI Usage Career Planning with AI Critical Thinking
Prompt Engineering

Empowers students to harness AI responsibly for academic excellence, enabling smarter research, improved writing, career planning, and ethical collaboration with AI tools.

AI Fluency for Nonprofits

Key Skills: AI for Social Impact Ethical AI Data Analysis Decision Making Problem Solving

Utilized AI for social impact, enhancing decision-making and problem-solving while maintaining ethical standards.

Claude Code in Action

Key Skills: AI-assisted Coding Debugging Code Generation Developer Productivity Workflow Automation

Integrated AI into software development workflows to enhance coding efficiency, reduce errors, and accelerate project delivery.

Introduction to Agent Skills

Key Skills: AI Automation Instruction Design Reusable Workflows Task Optimization Developer Efficiency

Built reusable AI instruction sets to automate tasks and improve development efficiency across projects.

Building with the Claude API

Key Skills: API Integration Chatbot Development RAG Systems Backend Development AI Application Development

Developed AI-powered applications using APIs, including chatbots and automation tools for real-world use cases.

Introduction to Model Context Protocol (MCP)

Key Skills: System Integration AI Tool Connectivity Python Development Data Integration Backend Systems

Connected AI systems with external tools and databases to enable real-world integrations and intelligent workflows.

MCP: Advanced Topics

Key Skills: Scalable Systems Advanced Integration System Architecture Performance Optimization Enterprise AI

Designed and deployed scalable AI integrations for complex environments with a focus on performance and reliability.

Claude with Amazon Bedrock

Key Skills: AWS Cloud Computing AI Deployment Scalable Systems Cloud Architecture

Built and deployed cloud-based AI applications using AWS infrastructure with a focus on scalability and security.

Claude with Google Cloud Vertex AI

Key Skills: Google Cloud Vertex AI ML Pipelines AI Deployment Cloud Integration

Implemented scalable AI systems using Google Cloud and Vertex AI pipelines for end-to-end deployment.

Operating Systems Basics

Key Skills:

Operating Systems Concepts Process Management Memory Management File Systems System Security
Linux Basics

Gained foundational knowledge of operating systems including process and memory management, file systems, and system security through Cisco Networking Academy.

Generative AI Content Creation

Key Skills:

Generative AI Content Creation Prompt Engineering AI Tools Usage Creative Design Text & Image Generation

Learned to create AI-generated content using generative AI tools, including prompt design, text and image generation, and creative applications for real-world use cases.

EXTRA CURRICULAR ACTIVITIES

- Active participation in technical hackathons.
- Presentation of technical projects in academic reviews and internal evaluations.
- Participation in environmental awareness and sustainability-related academic activities.
- Completed Adobe certified course focusing on digital design and creative tools.

PERSONAL INTERESTS / HOBBIES

- Drawing and craft
- Creative Designing
- Exploring AI Technologies
- Learning New Programming Skills
- Reading about emerging IT trends
